Sumanth	-	Full stack Developer	/	Bootstrap 4, PHP, HTML, CSS
Adarsh	-	Full stack Developer	/	React JS, REST API

Key Features

Responsive

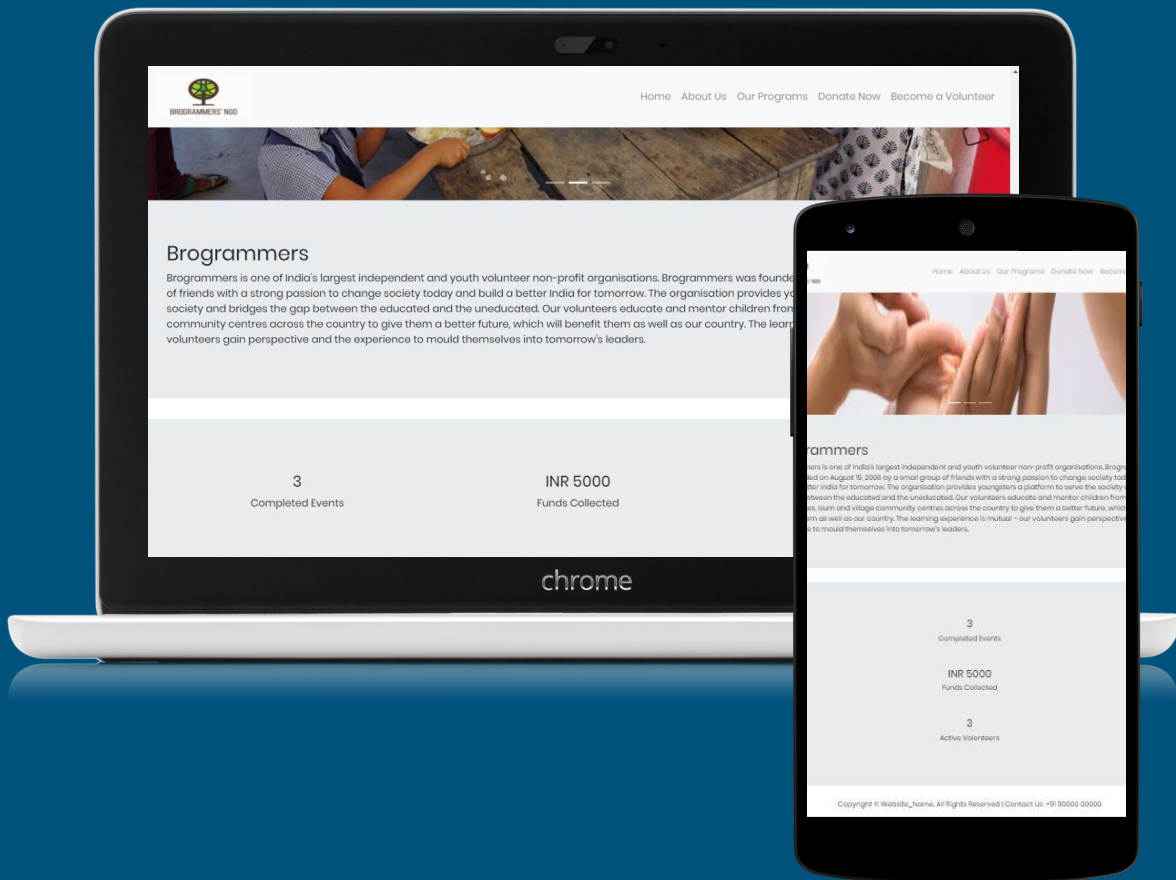

User
Experience

Authentica
tion

Transparency

Brogrammers' Fundraising NGO

A user-friendly website accessible for both Desktop and Mobile Users.

Design Details

Ease of making Donations

No authentication for Donors to reduce login burden but with a follow back of how their contribution was used

Transparency of Events

All events and programs can be viewed by any user. Events details are uploaded by NGO Head/Admin.

Verified Volunteers

Users are verified against their contact data by NGO Head before becoming a Volunteer.

Admin Capabilities

Creating Events

The created events have volunteers assigned and everyone can see details like objective, budget etc.

Approving Volunteers

Any user can sign up but are finally approved by the admin

Accounting

Fund management, budgeting etc.
